

Rochester Aero Model Society Meeting on December 5, 2017

Site – Bowlocity

Attendees

Marv Sawyer, Dave Just, Eric Van Norman, Jeremy Palbicki, Jim Nordly, Ken Rogers, Steve Brown, Lynn Landin

Old Business

- The Fall Closer Event on September 23 was bothered by windy conditions. For this reason the crowd was not very large. Flying was possible for the brave but not all attendees attempted to do so.
- The Drone Racing Event was held on October 8. The attendance was better than the event earlier in the year. There were 5 participating drone pilots and quite a few observers.

Treasurer's Report

- Steve Brown's report of the financial status as of December 1, 2017 was discussed. All of our accounts are in good standing. The proposed Budget for 2018 was also presented. It showed a small shortfall in revenue for the coming year. Steve Brown has requested an adjustment in our lease but has not received an answer yet. This matter will be discussed further when the reply is received.

New Business

- It has been suggested that we establish a Facebook presence. It could be used both as advertising for new members and as a communication tool for members to inform each other when people are going out to fly. Dave Just volunteered to set up such a site on Facebook.
- The lock on the gate was replaced as the old was no longer locking reliably. The combination remains the same.

Next Meeting

- The next meeting will be scheduled for April at a time and place to be determined based on the weather.
