

## Rochester Aero Model Society Meeting on August 7, 2018

Site – RAMS Field

Attendees

Marv Sawyer, Eric Van Norman, Jeremy Palbicki, Jim Nordly, Steve Brown, Roger Baker, Noel Taylor, Dave Just, Ken Rogers

Old Business

- A few imperfections in the runway were discussed. The general consensus was that they are manufacturing problems. One looks like a seam where two pieces of fabric were joined. A couple of others look as if the fibers are displaced a bit around a point but no fibers are severed. Only one has a couple of fibers severed and sticking up. We continue to check on this one to ensure that it remains as is and doesn't deteriorate.
- Everyone was reminded that there is a fund to pay for the runway and all members are asked to consider donating to it.
- Several members expressed their happiness with how the runway project turned out both in that the installation was not too difficult and the result makes the flying of smaller wheeled planes a greater pleasure.

Treasurer's Report

- Steve Brown's report of the financial status as of August 1, 2018 was discussed. All of our accounts are in good standing.

New Business

- In order to show off our runway, we will have a Fun Fly on August 25. It will be called Micro Flight Fun Fly but anyone can fly any plane they wish. The Marion RC Flyers will be invited to join us. Food will be available (probably burgers and hot dogs). A donation box will be available for anyone who wishes to help with cost of the runway.
- Nominations were opened for club officers for the next year. The only nomination was for the entire current slate of officers. They are:
  - President – Marv Sawyer
  - Vice President – Dave Just
  - Treasurer – Steve Brown
  - Safety Officer – Mike Norrie
- A Fall Closer Fun Fly will be scheduled at a later date.

Next Meeting

- The next meeting will be held on Tuesday, September 4, at 7:00 PM at the field weather permitting.
