

Rochester Aero Model Society Meeting on June 6, 2017

Site – RAMS Field

Attendees

Marv Sawyer, Dave Just, Steve Brown, Noel Taylor, Eric Van Norman, Ryan Kuisle, Jeremy Palbicki, Mike Norrie, Dale Kuisle, Jim Girod, Roger Baker, Jim Nordly, Ray Dray, Ken Rogers, Nate Davidson

Old Business

- At the work day on May 13, the height of the charging shelf was lowered and bushes or trees that presented plane hazards were cut down. Various options for bird abatement were discussed and no consensus was reached as to which was the best option. This project needs some more consideration prior to action. It was noted that the birds do not seem to be as big a problem as they were in the past.
- The schedule for the year was discussed. The Joint Fly-in with the Marion Club is at their field on June 10. A Family Day Fly-in is scheduled on June 24, a Fall Closer Fly-in on September 23 and a Quad Copter day on June 29. All of these events are on the calendar on our website.
- There are still a couple of planes and a transmitter left from Dave Hartwig's gift to the club. Look them over if you are interested.

Treasurer's Report

- Steve Brown discussed the financial status as of June 1, 2017. All of our accounts are in good standing.

New Business

- Ryan Kuisle has entered our Quad Copter day on the website of the Med City Drones
- Nate Davidson joined the RAMS at the meeting. Welcome, Nate.

Next Meeting

- The next meeting will be Tuesday, July 11, 2017, at the field at 7:00 PM weather permitting. The meeting was moved from the first Tuesday to the second Tuesday since the first Tuesday is the Fourth of July.
